

## WORKSHOP

# Solar Symbolism

**T**he sun, our most important source of energy, has been the inspiration for symbols throughout human history. Explore the sun's long and fascinating history as a symbol and gain insight into its meanings. In a workshop organized to complement the exhibition *Under the Sun: An Outdoor Exhibition of Light*, Mark Seltman will

discuss the meanings and uses of diverse solar symbols drawn from many cultures. With these images as inspiration, participants will use film, paper, and markers to create their own graphic solar symbols. The workshop will close with a discussion of what these new symbols reveal about their designers. This program is open to all ages. All materials are provided.

MARK SELTMAN, industrial designer

FRIDAY, JUNE 26, NOON TO 3:00 PM OR SATURDAY, JUNE 27, NOON TO 3:00 PM

98/33 FEE: MEMBERS \$15; NONMEMBERS \$20; STUDENTS \$10
