Metaphysics with Mark Seltman

Come To Cooper Union For An Untraditional Look At Yourself

**See What Hand Analysis, Numerology, Astrology and Hand Writing Analysis
And Other Symbolic Sciences Can Teach You About Your Personality and Potential**

**The Ten Week "Metaphysics" Course, Taught by Occult Scientist and
Hand Analysis Expert Mark Seltman, Begins February 27**

With a Metaphysics course taught by Mark Seltman, the well-known hand analysis expert, Cooper Union's Extended Studies program offers an opportunity to investigate personal issues in a unique way. The ten-session course begins February 27, running every Monday from 6:30 to 9:30 PM through May 1. At \$100, the course is a steal and includes guest speakers in healing, astrology, reincarnation, tarot and related topics who are all at the top of their fields.

For information on registering by phone, mail or in person, call Cooper Union's Extended Studies department at (212) 353-4195.

As one of Cooper's most popular annual offerings, the course attracts students of all ages, races and backgrounds, who come "out of curiosity, and end up never missing a class," according to Seltman. "There's no attrition -- each week is a new way for people to explore themselves." Seltman notes that metaphysics helps people to understand their physical, mental and emotional characteristics, the major influences that affect their lives and the degree to which they are fulfilling their potentials. Guest lecturers and Seltman, himself a much-publicized astrologer and hand analyst, show participants how they see what they see in hands, in the stars, in the cards and otherwise.

Symbolism discloses information about health, intelligence, sexuality, creativity and intuition, maps the past and present and provides important insights into future events and trends. The course explores mystical arts and sciences through an examination of the languages of astrology, hand analysis, numerology, tarot, graphology, healing and past-life regression. Students leave the course with their own astrological and numerological charts and hand prints, and the ability to examine and grasp insight from them.
